Our Mission

JSerra is an independent Roman Catholic high school that encourages students to pursue personal and professional excellence in life. Guided by the teachings of the Catholic Church, we work in partnership with committed parents and inspirational teachers to form the faith, intellect, and character of our young men and women within a Christ-centered, sacrament-based learning environment.

FROM THE PRESIDENT

Dear Families & Friends of JSerra,

As the days of December dwindle to a few and bring us to the close of 2019, it is a fitting opportunity to reflect upon the blessings of the year past. In doing so, I can't help but recall the words of a mentor of mine. Responding to the high level of satisfaction of new parents at the start-up school he helped found, he would often say, "Today's successes aren't our true successes. We will only know if we've been successful in our work with young people by the types of men and women they become faithful spouses, self-sacrificing mothers and fathers, virtuous professionals, inspirational community members, and, ultimately, humble sons and daughters of God." With our oldest alumni not only getting married but now starting families of their own – several of whom are now back working on campus! – we have a daily reminder of our mission coming full circle.

My hope is that the pages of this Annual Report will provide a glimpse for you into the many successes of our students. But more importantly, I trust you will see how grateful we are for your support of JSerra Catholic High School. Your contributions to our school, be they of the time, talent, or treasure variety, are critical for us to achieve our mission of forming the faith, intellect, and character of our students. On behalf of our Board of Directors, staff, faculty, administration, students, and parents, I thank you for the part you have played in helping us do the Lord's work here in this corner of San Juan Capistrano.

With deep appreciation,

Richard T. Meyer

Character

FIVE MAGNET PROGRAMS

Five professional magnet programs are offered on campus in the fields of arts, business, engineering, law, and medicine. These powerful academic experiences afford students a unique connection to potential career paths.

ENGINEERING

The Engineering Magnet Program (EMP) adopts the curriculum of Project Lead The Way – a leader in providing rigorous and innovative STEM (science, technology, engineering, and math) education. Students are exposed to a variety of engineering specializations during their four years in the program. Students gain detailed knowledge of diverse fields such as aerospace, chemical, industrial, civil, and electrical engineering. The JSerra Engineering Magnet has experienced a 22% increase in enrollment and currently exceeds 100 students for the 2019-2020 school year.

BUSINESS

The Business Magnet Program (BMP) develops future business leaders who are prepared, knowledgeable, and skilled in the global business environment. In collaboration with UC Irvine's Paul Merage School of Business, the program provides students with an instructional curriculum, co-curricular activities, and opportunities to apply knowledge to hands-on experiences to be successful in college and beyond.

LAW

The Law Magnet Program (LMP) is a four-year program that focuses on developing the student's written, verbal, and analytical skills. The curriculum, textbooks, and instructional methods are similar to what students will experience in law school. The law classes include a substantial amount of the material covered in the first year of law school. Students also participate in mock trial, internships, and several off-campus, law-related learning experiences.

THE ARTS

The Arts Magnet Program (AMP) provides four years of pre-professional training in the Visual or Performing Arts, including Choir, Orchestra, Dance, Theater, and Drawing & Painting. The mission of JSerra's Arts Magnet Program is to create independent thinkers and leaders who will contribute inventively and critically to their culture through their artistic discipline. At the core of the Arts Magnet Program is a series of discipline-specific courses which develop students' skills to an advanced level in their principle art form.

MEDICINE

The Medical Magnet Program (MMP) offers students an opportunity to explore the medical field in depth. Students in the prestigious program – made possible through a partnership with MemorialCare Saddleback Medical Center in Laguna Hills – shadow the hospital's industry-leading surgeons, neurologists, orthopedists, nurses, and administrative hospital professionals.

ATHLETICS

At JSerra, we believe that athletics play an integral role in the mental, physical and spiritual development of young adults. Athletics teach critical life lessons and skills such as discipline, cooperation and teamwork, time management, dedication, morality, compliance with rules, and proper work ethic. Thus, we encourage all our students to participate in school athletics from intramural sports to varsity competition in one of the most highly competitive leagues in the country – the Trinity League. We also encourage our students to participate in multiple sports, rather than focusing on only one activity. We are committed to providing our students the best possible athletic environment by offering 27 sports programs (22 CIF), experienced coaches and trainers, and unparalleled athletic facilities and equipment.

Our world-class athletic complex is among the best in the nation and reflects our strong commitment to high school athletics. The multi-million dollar complex is situated on 29 acres adjacent to our academic campus and includes a 2,000 seat gymnasium, an Olympic-class aquatics center, a fully-equipped, state-of-the-art training center, varsity and junior varsity softball fields, varsity and junior varsity baseball fields, five soccer fields, and football and lacrosse fields (all utilizing artificial turf for maximum safety and playability). It also includes six tennis courts, a synthetic running track, two sand volleyball courts, two athletic training clinics, as well as a golf practice center with a sand trap and hitting cages.

Champions in 2019

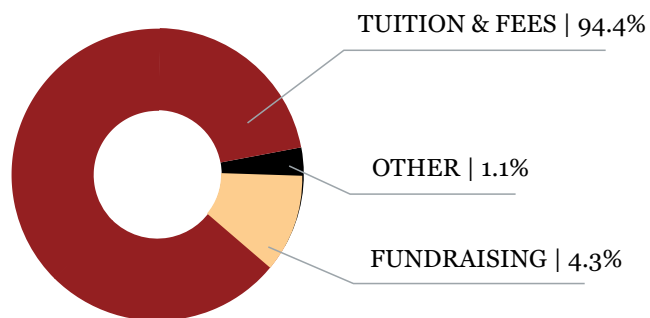

THE *Arts*

The Arts Department at JSerra encourages students to explore their creative side by providing ample opportunities to participate in Performing or Visual Arts – whether it's in front of or behind the camera, curtain, or canvas. Students may concentrate on the arts through the Arts Magnet Program or participate in activities such as theatre productions, choir, rock band, and more. Students are welcome to engage with more than one activity; in fact, many of our students balance their participation in the Arts with rigorous AP and honors academics, Magnet Programs, and/or Athletics.

** Student Donations*

Every gift enriches our mission here at JSerra. Thank you to all the donors who continue to be instrumental in the development of our school.

With a grateful heart, we welcome your continued generosity and support. To pursue philanthropic opportunities, please visit jserra/give or email advancement@jserra.org.

SNOW DAY - The week before winter finals, JSerra students enjoy an afternoon of snow cones, sledding, and an occasional snowball battle in the Quad.
