Algebra 2/Trigonometry Honors

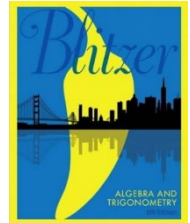

JSerra Catholic High School

Textbook: Blitzer, Robert, *Algebra & Trigonometry 6th edition*: Pearson, 2018

ISBN# 0134463218 / 9780134463216 (paper or e-text)

*ISBN#'s differ depending on publisher's add-on packaging

"MyMathLab"-online access NOT needed

Summer assignment: Preview/practice Chapter P of the textbook

Get your textbook BEFORE the start of school.

Students do not need to turn in any written assignment on the first day of school, but students will be tested on the chapter P material a few days after the start of school.

Historically, many students find themselves doing very poorly on this first quiz for a variety of reasons, but the problems in chapter P represent algebra 1 topics that students need to have mastered before continuing with the honor's level of Algebra 2/Trig.

Suggestion: practice the odd problems (so you can check the answers from the back of the book) from section P1-P6

Graphing Calculator – required for this course.

Recommended: **TI-84 plus CE** (older TI-84 model calculators do not have all the features but can still be used)

(TI-Nspire has additional features unnecessary for any high school math course and is not the model used for this course).
